Traxler's Collection of Fragrant Peonies

Traxler's collection contains only the best of the fragrant varieties, hence fragrance is seldom mentioned in this list. While all varieties listed are fragrant, they are not all equally so. Some varieties have a fragrance that is slight but agreeable and in others the fragrance is strong and delightful.

To meet a small and happily, decreasing demand, we will furnish small one and two eye roots of varieties listed at \$7.50 and over at from $\frac{1}{3}$ to $\frac{1}{2}$ the list price, but we wish it distinctly understood that we do not recommend such small roots. The percentage of loss is apt to be much greater and they do not give that uniform satisfaction that our customers derive from the larger and stronger roots.

Let us remind you that the price of a variety does not always indicate its merit. The high priced varieties more often indicate the scarcity of the variety and the demand for novelties. **Festive Maxima**—the best known and the most widely grown of all peonies is rated by the American Peony Association at 9.3 on a scale of 10, which is considerably higher than many good varieties that are listed at \$25.00 and over. Not all peonies have been rated. Some of the newer and best have not yet been considered. Of those that are rated we list only such as have received a rating over 7 points on a scale of 10.

The brief descriptions given are accurate as far as they go. For further particulars, write for our descriptive folder.

Albiflora, single white, \$1.50

Albert Crousse, shell pink, \$1.50
